From: Andre Reiman
Subject: Morocco -- Update

Harald Schedel and Michel Dewerpe just called from Casablanca. The meeting went reasonably well; M. Salhi agreed to the letter with one minor modification (referring to the efforts of the Regie to secure health warning legislation, rather than to the efforts of the Government); the letter is now being typed for signature; and it was agreed by M. Salhi (somewhat reluctantly) that, if we decided to use stickers over the health warning, that would be acceptable. So, it appears that we will have the flexibility to make the decision of exactly in what manner to proceed.

Harald will be giving a separate report to Mr. Gembler.

Andy
